## Report of School Board.

---

Notwithstanding it has been the policy of the board to select teachers who seem to be achieving good results, only two teachers have had charge of the same school throughout the past school year. Nearly all the changes made have been because the teachers would not accept a re-election. In some instances this is said to have been due to the fact that a few citizens of the immediate community withheld that sympathy and co-operative influence that is so helpful in school results. The task of the efficient teacher is onerous enough without such unpleasant conditions, and because of them less is realized from the expenditure of school money than otherwise would be.

The supervisory district of Pembroke, Pittsfield and Allenstown has been continued, Leon O. Merrill being succeeded in July by Everett T. Whitford as superintendent. At the beginning of the school year, the old course of study was supplanted by the state course, a principal reason being the desire for uniformity for the advantage of pupils who chance to move from one town to another. An unusually large number of new text books have been bought this year, the stock having been allow to run low because of desirable changes that had been anticipated, particularly in geographies and physiologies. The attendance of pupils has been unusually large in some of the schools, particularly in the intermediate room in the village. Then in the fall, there was a total enrollment of fifty-six and it has been but little less during the winter. The board fully realized that the number was far too large for the work that the two

grades therein require, but there seemed to be no practical remedy until the new building was completed. As there was then a far too large a number in the next lower room, the board felt fully justified in offering the pupils of these rooms an opportunity to make up for the inavailable disadvantages that they had endured by re-opening one of the rooms in the old building and giving the pupils of these two rooms additional attention and help in instruction. There was such a pronounced opposition to this special favor on the part of pupils, parents and other citizens that the proposition was abandoned and the conditions unfavorable to best progress has continued.

Because of the small attendance in the higher grades at the village and the large attendance in the lower grades, it has been deemed the most practical plan to have but one grade in the lower room, two grades in each of the higher rooms and three in the grammar room. With the large classes that should go forward from the intermediate room, it will soon be necessary, as it is equitable that there be only two grades in the grammar room, thus bringing again two grades into the primary room. Such conditions will require an additional room and teacher for the first two grades. The large book room on the first floor in the new building can be fitted up for such use or the room in the old building be thus utilized. With the requirements of the course, forty pupils should be the maximum under a single teacher.

Considering the state of the investment market, during the past season, the district has been favored in the sale of its bonds for the Suncook school building. The full amount authorized, \$19,000 was issued. They were made to bear  $3\frac{1}{2}$  per cent., payable semi annually and exempt from taxation. Through a friendly feeling of its officers, the Manchester Savings Bank and the Loan and Trust Savings Bank of Concord, took the entire issue allowing the liberal price under the market conditions of

par. The bonds are serial of \$1,000 face each, one coming due each year on July 1. The interest is payable at the National State Capital Bank of Concord, July 1 and January 1, each year. As the average term of the bonds is about ten years, the low rate of interest means no inconsiderable saving to the district.

A large class of ninth grade pupils was awarded diplomas at public exercises at Thompson hall, Pembroke Academy, Friday evening, June 21. A large number of parents and friends of the class were present, and the parts most creditably rendered.

A school has not been maintained at Buck Street during the winter, because of the removal from the district of all the children that had been in attendance there.

Minor repairs have been made upon all of the school buildings outside the village, and the roof of the long disused building at the Borough has been resingled.

The new building at Suncook was turned over to the board in January, although in the middle of a term, was utilized immediately.

The school census required by law, made in September by Frank T. Cheney showed:

Number between 5 and 15 years, boys,	325	
“ “ “ “ “ girls,	321	
	—	646
“ “ 10 and 16 “ unable to read and write,		87
Number between 8 and 14 not attending school the previous year,		28

The annual school meeting will be held Saturday, March 14th, at the Town hall at 1.45 o'clock.

GEORGE W. FOWLER,  
GEORGE H. COLBY,  
TRUMAN GILSON,  
*School Board.*

## Superintendent's Report.

---

### *To the School Board:*

I herewith submit to your consideration my first annual report, which is the seventh in the series of reports of Superintendents of the Pembroke schools.

During the portion of the year that I have worked in Pembroke I have been impressed with the genuine interest of the community in good schools. Such interest exerted along proper lines can result only in the best schools.

That this public interest has been exerted along proper lines is shown by the erection of the substantial and modern building which has been built for the use of the Suncook school. The new building is thoroughly appreciated by both teachers and pupils and will be of great value in producing pupils of better health and higher character than would be possible in the old building.

Early in the year it was found necessary to change the course of study. The course in use was variable and unsatisfactory, as it was confused and wasted time. The state course of study was adopted. While the adoption of a new course of study always results in some temporary confusion and hard work on the part of both teachers and pupils, the change was in this case necessary in order to produce efficient pupils and the issue has been met cheerfully by both teachers and pupils.

At the beginning of the school year all the school text books were labelled and numbered and a charge system was inaugurated. By this system each teacher is charged with all school books in her care and each

pupil is charged with all text books which he has in his possession. In this way each pupil can be held responsible for the return in good condition of all books loaned to him by the district.

Although a broadened course of study including more nature work and manual training of various kinds is ultimately desirable, I believe that at present stress should be laid upon increased efficiency in the branches now taught. As the salaries now paid our teachers are much smaller than those which are now paid to teachers of such ability as we desire, I recommend that we continue our present salaries as minimum salaries and adopt a system of graded salaries to be increased as a teacher in our service increases her efficiency in the class-room and in her theoretical knowledge of teaching.

The Buck St. school was closed at the end of the fall term, as there were no children of school age then residing in that district.

I wish to recall to your attention the recommendation of Superintendent Benedict in the annual report for 1905 to the effect that the Pembroke St., Pembroke Hill and Brickett Schools should be consolidated. Such consolidation could well be extended so as to include the North Pembroke school. The pupils of all of these schools could be accommodated in a two room building. The larger classes would result in increased interest and efficiency. The reduction of the number of classes in each room would allow more time to be given to recitations. Finally, the reduction in the number of the teachers would allow an increase in the salary of those retained, and, even after transportation was paid for, the expense to the district would be less than at present. Although this consolidation may be at present inadvisable, I recommend it to your early consideration.

Respectfully submitted,

EVERETT T. WHITFORD,

*Superintendent of Schools.*

## Report of Building Committee.

---

Immediately following their election, the committee advertised for suggestions as to location of the proposed building. Practically all the responses received favored the site finally chosen, previous to which decision, all the possibly available lots were personally inspected by the committee. Visits were made to recently constructed four room buildings in Manchester, Concord, Laconia and Berlin and builders' plans were examined and professional school men were consulted to benefit from the experience and investigations of others who had been charged with similar duties. After considering several proposals, Chase R. Whitcher of Manchester was chosen architect, and his service was eminently satisfactory in every respect. A lot practically four acres west of High Street was purchased of the Concord & Montreal railroad at the very low cost of \$1,000, the railroad officials taking into account the advantages to it, in having such a large number of children transferred from a building bordering upon its street railway tracks. A larger tract was secured than otherwise might have been because of the desirability of determining the use to which the land immediately fronting the building might be put, and it could be done without material increase in cost. The district is much indebted to President B. A. Kimball of the C. & M. R. R., to President Lucius Tuttle of the B. & M. lessee and to John M. Mitchell, counsel, for generous treatment as to site and play grounds for the building.

Six proposals were received in response to advertising for bids to erect the building; contract was awarded to Walter H. Sargent of Concord. It did not include builders hardware, seats, desks and furnishings, water and

sewer connections, light fixtures, nor grading. Ground was broken in June.

The relations of the committee with the contractor were uniformly pleasant, and the architect as well as the committee were most thoroughly satisfied with his work. George N. Simpson furnished the brick and Charles A. Bailey did the granite work. With the exception of three inspections by the architect, all the supervision of the work was done by members of the committee. The building was dedicated Saturday, January 11, 1908, the exercises being most largely attended. The program consisted of prayer by the Rev. Thos. Whiteside; singing, school chorus; report of building committee and turning over keys by George P. Cofran; acceptance of keys, George W. Fowler; singing, pupils; dedicatory address, State Superintendent of Public Instruction, Henry C. Morrison; singing, pupils; brief addresses, Mayor Charles R. Corning, Concord, S. J. Winslow, Pittsfield, John Gault, Manchester, Profs. H. N. Dunham and Isaac Walker, and Superintendent E. J. Whitford; singing, pupils and audience; benediction, the Rev. J. E. Evengham. More than five hundred people were present. The work of completing the grading and the construction of permanent walks was not completed, because of the cold weather. The committee is confident that the balance of the appropriation unexpended is ample for that work.

No charge has been made by the members of the committee for their work in connection with the enterprise, nor for any personal expense incurred in the discharge of their duties.

The report of the treasurer of the committee follows.

Respectfully submitted,

J. G. FELLOWS, *Chairman*,  
GEO. P. COFRAN, *Secretary*,  
E. M. FOWLER, *Treasurer*,  
F. H. SIMPSON,  
GEO. W. FOWLER.

By George W. Fowler, Chairman School Board.

## Roll of Perfect Attendance.

---

### SUNCOOK GRAMMAR.

SPRING TERM.—Arthur Chickering, James M. Cox, Howard T. Paine, Emma Gilbert, Harriett W. Kelley, Ruth P. Morse.

FALL TERM.—Alfred J. Booker, James McInnis, Howard T. Paine, Anna M. Cass, Sarah George, Amy Thompson.

WINTER TERM.—Sarah George, James McInnis.

---

### INTERMEDIATE.

SPRING TERM.—Arthur Cochran, Joseph Maguire, Alice Blanchette, Edith Bartlett.

FALL TERM.—Maynard B. Georgi, Charles H. Morse, Adonia A. Douillette, Helen E. Horn, Irene P. Kelley.

WINTER TERM.—Edith M. Bartlett, Lillian B. Batchelder, Winnifred C. Clement, Veronica E. Clement, Adonia A. Douillette, Helen E. Horn, Irene P. Kelley, John A. Horn, Charles H. Morse.

---

### SECOND PRIMARY.

SPRING TERM.—Henry Blanchette, Maynard Georgi, Charles Morse, David Poisson, Doris Bartlett, Madeleine Georgi, Helen Horn, Lea Martel.

FALL TERM.—Philip Douillette, Kenneth Osgood, John Welch.

Winter term, none.

## FIRST PRIMARY.

SPRING TERM.—Arthur Bonner, Eugene Clement, Eugene Clark, Arthur Dufort, Harold Fowler, George Woodward, Noelle Clement, Blanche Clement, Ella Horn, Mary Maynard.

FALL TERM.—Eugene Clement, David Douillette, John Guyette, George Woodward, Florence Guyette, Ella Horn, Mina Poisson.

---

## PEMBROKE STREET,

SPRING TERM.—Pearl Adams, Mary O. Cushing.

FALL TERM.—Edith S. Gile, Mary Greenleaf. Eleanor Brockway.

WINTER TERM.—Flora E. Cushing, Mary O. Cushing.

---

## BRICKETT.

SPRING TERM.—Norman Clark, Mildred Clark.

FALL TERM.—Gurnie Crane, Sara G. Crane, Clara M. Clark, Mildred E. Clark, Eva St. John.

WINTER TERM.—Porter K. Chickering, Eva St. John.

---

## PEMBROKE HILL.

SPRING TERM.—None.

FALL TERM.—None.

WINTER TERM.—Ivan Robinson, Joseph Robinson.

---

## NORTH PEMBROKE.

SPRING TERM.—Elzear F. Mayo, Arthur Mayo.

FALL TERM.—Gladys Holt.

WINTER TERM.—None.

---

## BUCK STREET.

SPRING TERM.—Walter F. Jameson, Arthur A. Jameson, Adams Martin.

FALL TERM.—Adams Martin.
